World sweet home

Home for wherever you are

For four decades, travelling by Rimor has meant that, all in all, home is wherever you are. A full range of motorhomes and vans that are highly functional, with essentiality also as a key feature, conceived in the spirit of Made-in-Italy design and artisanship, while bearing in mind the will and spirit of those who choose Rimor – freedom of movement.

The uplands and the lowlands, coastlines, and towns and cities – a whole world to be explored by you and your family. A world for adventurers constantly on the lookout for something new. People who are also “at home” with new destinations.

Our history

We celebrate 40 years of Made in Italy

On 17 January 1978, Luano Niccolai officially founded the Rimor brand. He was animated by the determination to produce motorhomes – with all the enthusiasm and keen spirit of a true pioneer.

Over the last four decades, while the needs of motorhome drivers have changed, our passionate dedication to our work in this sector remains unchanged. We celebrate our 40th birthday with a new identity and a brand new logo, reflecting our optimism and our will to look forward. We are backed up, furthermore, by the solidity of the Trigano group – a leader in the recreational vehicles marketplace.

Freedom to choose

Choosing Rimor means following up your desires. The Rimor range of products meets all your needs, as you will see from the truly impressive array of layouts, bedding solutions, and storage spaces on offer. Our aim is to provide peerless convenience and comfort for all users.

We have been manufacturing recreational vehicles for more than 40 years. We are familiar with all the criticalities, particulars and details that require special attention: optimal protection from water ingress, constructional reliability, optimised spaces and quality of materials used. Our new mattresses, for example, provide all the comfort that you are familiar with back home – anatomic, anallergic –, the beds with wooden slats, not to mention the innovative solutions we provide for the dinette and tables. With the manual skills of the true craftspeople that we are, we seek out such options as these. We do so with great care, on a daily basis.

a love big like
this.

A white Fiat Fiorino van is parked in a stone archway of a rustic, stone-walled house. Two women are standing in front of the van on a dirt path. The house has a tiled roof, wooden shutters, and a large rose bush to the right. The word 'HORUS' is written in large white letters in the upper left corner.

HORUS

A new movement has emerged.

Compact, agile, young – ideal for life on the road

With Horus, a new idea of movement has just seen the light: compactness, ease of handling, amazing interiors, and two base vehicle solutions, FIAT and Renault. Choose one of three configurations. Sport, discovery and adventure need know no boundaries. Horus is a dream come true. Put desire in the driving seat.

Discovery at the turn of a key.

Horus is a ticket always at hand for the destinations of your desires. The configurations vary according to berths, but they share a single mission – climb in, travel on. Travelling, what’s more, in cutting-edge style. The refined finishings create the feel of a real motorhome, with living space to spare, comfortable berths, a functional living area and a fully equipped kitchen. There are no sacrifices with a Horus. A solution available at the right price.

Double bed
HORUS 36
HORUS 38

Double superimposed bunk beds
HORUS 45

Interiors

The Horus range is surprisingly capacious and hospitable – given the limited space available. The beds are comfortably long (up to 192 cm). The bathroom is large, and the furnishings and fittings provided for it have been fully upgraded. As a solution, the table is a stroke of pure genius. It can also be used as a top outside. The folding dinette is amazingly practical. The bed is large enough for one adult and a child.

The kitchen area for Horus includes a system with racks or baskets on roller guides, so you can stow everything you need away in the cupboard. The new dimmable lighting system with touch switches is both convenient and practical. A heating system combined with CP plus digital control unit is also included.

Cupboard with racks on roller guides

double version for Horus 45 and Horus 38 and single version for Horus 36

Smart table

removable for use also outside the van

More space available in the furnishings (Horus 45)

with lower quick-folding bed base and upper bed

solution with upper bed with 1 or 2 berths

solution with fully removable lower and upper bed

Dimmable LED illumination

for the dinette and kitchen, with touch switches

Practical bathroom ensuring freedom of movement

with modern design solutions and sturdy materials

Bed in dinette

for an adult and a child together, if required

Capacious furniture

and easily accessible spaces

Other characteristics

Generous rear bed dimensions

large rear beds up to 192 cm in length

Webasto heating Air Top Evo 40
(Horus 36)

External features

The new Horus is compact, agile and amazingly comfortable, as a car that you can enjoy together with all the benefits of a motor home or, if you prefer, as a motor home that you can enjoy with all the benefits of a car. Whatever your priorities may be, Horus will cater to all your needs. The side and back doors facilitate access to the living space and sleeping area. The extremely user-friendly and functional design solutions of Horus will surprise you. Likewise this model's driveability. A vehicle ready to get you to wherever you want to go.

Two different mechanical units

FIAT for Horus 45 and 38, and Renault for Horus 36

Compact, functional design solutions

for a marvellously liveable interior

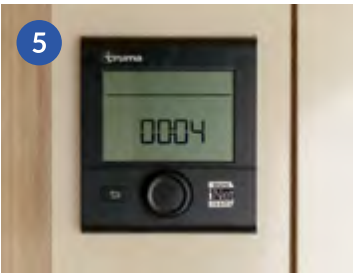

Large sliding side door

facilitating access to the vehicle

Fully openable back

facilitating access to the storage area

Truma heating

with CP Plus digital control unit (Horus 38 and 45)

**your new passport
to distant horizons.**

SEAL

Seal, you can!

Many options for many desires.

With its 17 models (6.5 m - 7.3 m), 3 new layouts and a range of solutions to meet all needs, with a close eye always on the quality/price relation, Seal has something for everyone. Leanly styled and impressively dynamic, Seal is the ideal motorhome for all trips. Suitable for all destinations.

A friend that's always ready to go!

Seal – whether the overcab or the low profile version – embodies perfect travelling comfort for you and your family, or together with your mates, or with a special friend. Your comfort is assured by the many bedding solutions available: double, single, overhead, and bunk, plus additional bedspace in the dinette. The spaces have been devised for absolute functionality. The new table is lighter and slimmer. The bathroom's toilet and shower are totally separate. The dimmable lighting system with remote control and touch switches and the new living space transparent panoramic window are further key features.

You may have special requirements and therefore a need for locker spaces of various volumes (Seal 7 and 9). The garage storage area of Seal 5 is one of the largest of this class.

SEAL 50

Interiors

In addition to the classic solutions for the interiors, this year Seal also features 3 new layouts for overcab versions: Seal 8 (below 7 m), Seal 50 (with 6 berths ready at all times) and Seal 695 (with twin beds). The low profile models include the classic version (Seal P) and the forward positioned electric drop-down bed (Seal P Plus). We took a second look at the interior design, and we came up with a new living space – including a table with greater stability, the structure of which is lighter. The new slimmer table leg makes for more leg space. The bathroom, too, includes a new basin. It is now more comfortable, and it provides more freedom of movement.

Seal is the interface between technology and practicality. The dimmable lighting system is operated by remote control and next-generation touch switches. The three-burner hob allows for adequate space for cooking: all you need is within easy reach. The new transparent panoramic window provides abundant light for the interiors.

3 new layouts

Seal 8, Seal 50 and Seal 695

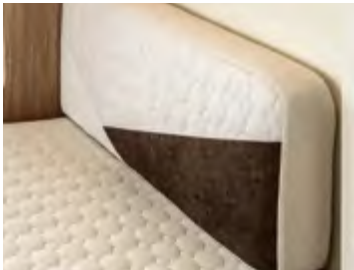

Openable skyview (optional)

for panoramic views, also shedding abundant light on the interiors

More leg room

provided by the slimmer table, also endowed with enhanced stability

Quilted fabric

of the highest quality, with fine finishings for the seating

Living space panoramic window

for unexpectedly abundant illumination

Dimmable lighting with remote control

and touch switches, plus hot/cold tone adjustment

New bathroom design

more spacious for greater freedom of movement

Three-burner hob

with electric ignition system

Toilet with separate shower stall

for practicality and convenience

Combi C4 system

for combined air and water heating

Other characteristics

Braked hinges

for wall units and drawers

Height-adjustable bed (optional)

for the Seal 69, Seal 5 and Seal 8 models

External features

Seal meets all your space needs. Fifteen layouts are available for the 6.5-m to 7.3-m versions, with many bedding solutions. The functional features have also been upgraded, with a new opening system for the water and an even more user-friendly lock for the garage storage area, facilitating access to your luggage.

Size specifications to meet all needs

with lengths from 6.5 m to 7.3 m

New water opening system

with practical flap door

Access door with compartment for accessories

also with openable window and built-in sun shade and fly screen (optional), plus a fly screen for the door itself (optional)

The largest locker for this class

on the Seal 5 model (1280 x 850 mm)

Other characteristics

Practical lock for the garage storage area for quick and easy access

Locker with variable volume on the Seal 7 and Seal 9 models

KATAMARANO

Travelling the family way.

All aboard! Join in on the spacious Katamarano.

Come on in. There is room for us all! Katamarano is an ideal solution for families. It is reliable and generously proportioned, with special spaces that everyone will find a use for. The constructional features make this a stylishly unique motorhome.

Sleeping accommodation? Up to 7.

There's no need to cram together: Katamarano accommodates as many as 7 homologated seats in the Sound and 9 models. The ingenious bedding solutions show us we need not scrimp for space: check out the double bunk beds at the back, the 6 immediately available berths in the 50 version, and the truly generous dimensions of the sleeping area in the Katamarano 109P Plus, with central bed.

And for a touch of class we have added new lighting fixtures with touch switches, new curved doors for the living space, an electric access step, stylish car headrests and a new corner shower stall with LED strip lighting.

Interiors

Katamarano has been revamped for a more contemporary look and appeal. The new shelving and door surfaces are curved, adding a harmonious look to the various spaces. With its LED lights – alongside the touch dimmable lighting system as a whole – the shower column also adds a touch of technological refinement to the interiors.

Please also note the upholstery's details, such as the car-style seats with headrest, assuring greater comfort and ease, and the bed ladder that leaves no mark on the floor, thanks to the articulated-joint rubber feet.

Shower column

Harmonious design

with curved shelving and doors for a contemporary look and feel, plus braked hinges

New structure for the table

including a slimmer leg

Standard drop-down bed

with electric lifting mechanism in all low profile models

Other characteristics

More functional bed ladder

with articulated-joint rubber feet for greater convenience when positioning at various angles

New dinette bench

with lighter structure

External features

The key quality of the Katamarano range has always concerned space, and the use of spaces — including berths. The garage storage area at the rear is generously proportioned and in some models it can even be used to store scooters and mopeds. The electric step and the handle facilitate access to the vehicle. The Combi C4 system heats the water and the interiors from a single unit.

Access door with compartment for accessories

also with openable window, plus built-in sun shade and fly screen (standard), and a fly screen for the door itself (optional)

Practical storage solutions

to make full use of all spaces

Access step

electrically operated

Other characteristics

The handle for access

is larger, for greater freedom of movement in getting into and out of the vehicle

Practical lock for the garage storage area

for quick and easy access

Locker with variable volume

as standard feature in the Katamarano 9

SURF

On the crest of your wave.

Go where you like – on the cutting edge of style.

Surf combines elegant design features and a marked versatility. Surf is a motorhome for all seasons, given its heating system, ideal even for the coldest weather conditions. The standard equipment was conceived for the discriminating, smart holidaymaker: large 141 l refrigerator, Webasto heater and a generously proportioned convenient bathroom.

When simplicity takes over.

Essentiality is the hallmark quality of Surf, reflecting the considerable intelligence that went into so many of Surf’s extraordinary particulars and details: the standard electrically operated drop-down bed, window fittings of excellence, the shower column with magnetic slider, the capacious refrigerator and the Webasto heating system.

Hidden away is the special internal lining along the sides and on the doors, included for added travelling comfort and protection against the elements. The operating panel includes LCD, and the entire lighting system has been re-designed and upgraded to outstanding effect, thanks to the new ceiling lights.

Interiors

With its Webasto Air Top Evo 55 system, Surf’s heating beats all the alternatives in its class. The refrigerator, accompanied by a separate (standard) freezer, is now more generously proportioned (up to 141 l).

The design features have been revamped. The new fittings include braked cupboard door closing and new handles, new elegant ceiling lights and a large table for the living space that can be moved around easily and at will.

EUROPEO

Italian style. International elegance.

**Top class finishings and furnishings
inspired by the boating world.**

Europeo will take you to your destination on the cutting edge of style. All the particulars and details have been meticulously worked out to provide top quality solutions: elegant claddings and special features with a nautical look. Not to mention the fantastic views from Europeo's large front panoramic standard window.

New horizons for travellers.

We can look anew upon the things around us when we consider the details. The front panoramic window adds fresh vistas. Europeo provides space in abundance. While the internal height under the drop-down bed has been optimised (192 cm), the finishings – above all – are what sets this vehicle apart from all others. Top quality materials have been used for the various fittings, furnishings and upholstery. The features of excellence include the LED illumination, the USB sockets, the table that can be moved in all directions and a shower unit that afford great freedom of movement.

The kitchen, too, is spacious and functional, as we also find with the bedding solutions. Here, too, the Europeo beats all the alternatives in its class. Note the bed that can be electrically operated (optional for Europeo 69 Plus and Europeo 87 Plus), and solutions with twin beds and double bed centrally positioned or transverse.

EUROPEO 69 PLUS

Transverse bed
EUROPEO 87 PLUS

Twin beds
EUROPEO 95 PLUS

Interiors

The strength of Europeo’s living space lies in the design details: the sink and the hob are flush-mounted, the dining table can be moved along 3 axes, the new lamps and switches also include USB sockets for your electronic devices.

The sleeping area is amazingly functional. Thanks to its intelligently designed compartments, you will find a special space available for everything you can think of. The electrically operated drop-down bed is a standard feature for the entire range. You might also opt for the electrically operated rear bed solution, for perfect comfort and convenience.

Flush-mounted sink and hob

SUPER BRIG

Your flagship motorhome – as always

Everything you could ever want from a motorhome, backed up by the boundless passion of Rimor.

Super Brig has always been Rimor's flagship motorhome. The company's founder, Luano Niccolai, who conceived this item, was always very keen on his Super Brig, in particular. To celebrate the brand's 40th anniversary, this year's range boasts the exclusive Signature Edition. With its top quality finishings, and its spacious living area and special fittings, Super Brig's stunning excellence is evident in the sheer quantity of details and particulars included, in the nautical look for the interiors, and in the liveability of the dinette and living space. No compromises here. A motorhome for truly 'professional' holidaymakers.

Luano Niccolai

A mobile suite for all locations.

Super Brig is elegance on wheels, with the kind of refined detail work you would expect in a grand hotel suite. Super Brig is indeed a mobile suite for all locations. Check out the sleeping area, for example. A number of solutions are available, with double bed, rear bunk beds or twin beds. In the living space, the spacious dinette includes high quality fittings in wood, deluxe upholstery and swivelling driver's seat.

The quality of the various fixtures and appliances – such as the 160-l column refrigerator, the freezer and the fitted oven – is of the very highest order for this range of vehicles.

SUPER BRIG SUITE

Interiors

The name itself, Super Brig, indicates the naval and marine source of inspiration! The finishings are in wood. Super Brig features LED illumination with a designer look and appeal, top quality fabrics and a variety of solutions worked out right down to the very last detail (e.g. the large dining table with wooden inserts). As a model that is quite unique for its class, Super Brig Suite provides the most spacious living spaces for this range. The elegant second dinette at the rear spans the entire width of the rear of the vehicle, in a space that can be transformed – as and when required – into a comfortable additional bedding area.

The fixtures and fittings, too, are top quality for this class: USB sockets for charging your electronic devices, large refrigerator with separate freezer, oven, capacious and convenient shower unit with magnetic sliding rail, and Combi C6 heating system.

Discover Super Brig Suite, the most spacious living space of this range

Super Brig Suite has a second, nautical style dinette spanning the entire width of the rear of the vehicle.

Internal features and top quality upholstery

with a refined nautical look: 4 combinations of fabrics to choose from

Spacious dinette

with lighter table structure and finishing in wood

More functional bed ladder

with articulated-joint rubber feet for greater convenience when positioning at various angles

Height-adjustable rear bed

optional for Super Brig 677 and Super Brig 687

Flush-mounted sink and hob

plus sink mixer and touch operated illumination with integrated LED

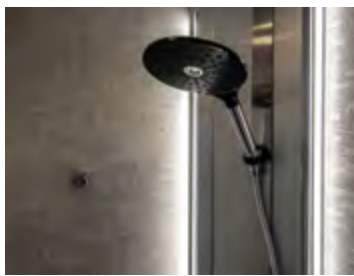

Large column with integrated refrigerator and oven

with its capacious 160-l refrigerator, separate freezer and oven

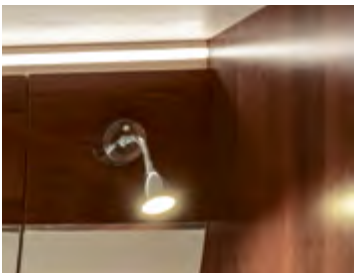

Toilet with separate shower stall

for greater practicality and more freedom of movement

Shower column with LED illumination

plus magnetic sliding rail and boating-style antislip footboard

Enhanced LED illumination

with lamps that include an integrated USB socket

Overcab bed

generously proportioned and well lit

Combi C6 system

providing combined water and air heating – the top quality solution for this class

External features

Super Brig cannot fail to impress. Indeed, we immediately see the spirit of this vehicle in its unique features and in the large front window, assuring an abundantly lit overcab interior. The vehicle's flagship qualities are more than evident in its capacious garage storage area, which can even hold scooters and motorbikes. Access is facilitated by a new handle with integrated LED.

Luano Niccolai signature edition

as a special edition of the company founder's favourite product range, on the occasion of Rimor's 40th anniversary
